You can also check the specific content of your age and gender through [health.gov/myhealthfinder](https://health.gov/myhealthfinder)

## COMMON PREVENTIVE CARE INCLUDE:

- Annual physical examination
- Tetanus vaccine, hepatitis vaccine, flu vaccine, etc.
- Women's gynecological examination, HPV vaccine
- Examinations and vaccinations for children of all ages
- Colonoscopy Screening for over 50 years old

## PRECAUTIONS FOR APPOINTMENT

When making an appointment for preventive care, please be sure to inform the providers that, what you need is a "FREE" annual physical examination / "FREE" Wellness Checkup, in order to avoid being charged according to normal visits

## PRECAUTIONS FOR DOCTOR VISIT

Because your appointment is an annual wellness check-up, this does not include other medical treatments if you feel unwell. Therefore, if you inform the provider during the physical examination that you have other health problems that need to be treated/examined, you may be asked to pay for the service.
